# MKA WOLVERHAMPTON NEWSLETTER

MARCH 2026

## TALEEM CLASS

Alhamdulillah, a successful Talim Class was held on 30th March at Bait-ul-Atta Mosque, Wolverhampton, with an attendance of 14 Khuddam and Atfal.

The session featured an engaging and thought-provoking discussion on the story of Hazrat Adam (AS), focusing on his role as a Khalifa on earth. The topic was explored from both the Ahmadiyya perspective and commonly held non-Ahmadi viewpoints, helping to clarify misconceptions and deepen understanding of this important subject.

Khuddam actively participated, contributing valuable insights and reflections, making the session both interactive and beneficial for all attendees.

## TABLIGH

Alhamdulillah, the Tabligh Department of MKA Wolverhampton actively carried out leafletting and an information stall in the city centre to convey the peaceful message of Islam to the wider community.

Khuddam engaged with members of the public, distributing literature and answering questions about the true teachings of Islam, promoting values of peace, tolerance, and mutual respect. The stall provided an excellent opportunity to address misconceptions and foster meaningful conversations.

Through these efforts, Khuddam demonstrated their commitment to tabligh (outreach) and serving humanity by sharing the beautiful teachings of Islam.

# KHIDMAT E KHALQ

Alhamdulillah, one of our Khuddam took part in a noble act of service by donating blood plasma, contributing towards saving lives and supporting those in critical need.

This selfless act reflects the true Islamic teaching of serving humanity and compassion for others. Even a single donation can make a significant difference for patients requiring urgent medical treatment.

Such initiatives highlight the spirit of MKA Wolverhampton, where Khuddam strive to embody the values of sacrifice, care, and social responsibility.

# TREE PLANTING

Alhamdulillah, the West Midlands Region successfully held a tree planting session, bringing together Khuddam and Atfal in a collective effort to serve the environment and community.

A total of 10 Khuddam and 6 Atfal participated, planting approximately 300 trees, contributing towards a greener and more sustainable future. This initiative beautifully reflects the Islamic teaching of caring for the Earth and fulfilling our responsibility as custodians of the environment.

Alongside the plantation activity, Khuddam also engaged in tabligh efforts, interacting with members of the public and conveying the peaceful message of Islam Ahmadiyyat to 8 individuals. These meaningful conversations helped foster understanding and build positive connections within the community.

# IFTAR DINNER

Alhamdulillah, Khuddam came together for a collective Iftar, creating a beautiful atmosphere of unity, brotherhood, and spirituality.

The gathering provided an opportunity for Khuddam to break their fast together, followed by the offering of Maghrib prayer in congregation. After Iftar, Khuddam spent time in informal discussions and friendly interactions, strengthening bonds and enhancing a sense of brotherhood and connection.

The evening continued with Isha and Taraweeh prayers, allowing everyone to further benefit spiritually and make the most of the blessed month of Ramadan.

Such gatherings not only strengthen unity but also reinforce the values of discipline, sacrifice, and gratitude that Ramadan teaches us.

# SPORTS

Alhamdulillah, a badminton session was held on Thursday, 26th March at 9:00 PM, providing Khuddam with an opportunity to engage in healthy physical activity.

The session encouraged fitness, teamwork, and friendly competition, while also creating a relaxed environment for Khuddam to connect and strengthen brotherhood. Such activities play an important role in maintaining both physical well-being and social bonds within the Jamaat.
